This list provides GPS coordinates for selected New England shipwrecks. We have gathered these numbers from a variety of sources and the accuracy may vary from wreck to wreck. For that reason, we have included multiple sets for some of the wrecks. Other wrecks on the list have blank coordinate fields; these are numbers we are looking for. If you have accurate coordinates for these or other New England wrecks, and are willing to share them, please submit them to our editor for possible inclusion in future updates. And if you find numbers on this list that are inaccurate, let us know, so we can try to fix them. Please e-mail your comments to editor@wreckhunter.net.

For additional information on the shipwrecks listed here, check out our website **Hunting New England Shipwrecks** at <http://wreckhunter.net>. Good luck with your hunting and thanks for your help.
